THE WARD-BELMONT SCHOOL

HISTORICAL SKETCH

Ward-Belmont School, comprising a four-year college preparatory course and a junior college for young women, is the outgrowth of the union of Ward Seminary and Belmont College. Ward Seminary was founded in 1865, by Rev. William E. Ward, D.D. This Seminary was established when Dr. Ward learned that the Nashville Female Academy, founded in 1820, could not re-open after the Civil War. Dr. Ward states the cause of the founding of this school in the following words: "It was conceived that the want of the country was a more thorough preparation of young women for the duties of life. To this end a free, classic course was inaugurated and a full course in all other departments. It was intended that the full meaning of the word 'educate' should be striven for—the drawing out of all the powers, mental, moral and aesthetic." From the very days of its foundation it filled a distinct need not only in the local community but in the surrounding states as well. Dr. Ward, with his wife as an efficient co-laborer, directed the affairs of the school for over twenty years. In 1892, after the death of Dr. Ward, Dr. J. D. Blanton and his wife became associated with the school. In 1890 Belmont College was established by Miss Ida E. Hood and Miss Susan L. Heron. The character and purpose of this school is best expressed in a statement by the founders: "The guiding thought and spirit of our work is the conscious desire to impart practical knowledge in such manner as best develops power, recognizing that far higher than this is the unconscious influence that emanates from the atmosphere and environment of a wisely directed school, and is woven into the lives of all that come within its contact. It is our purpose to furnish opportunities for a broad and scholarly education."

In June, 1913, when Misses Hood and Heron expressed a desire to retire, the two schools were united on the Belmont campus under the name "Ward-Belmont School." The present school counts as its loyal alumnae the graduates of both Ward Seminary and Belmont College. Since the consolidation, the school has offered a four-year college preparatory course, and two years of college work. In every sense it has been a pioneer in the junior college movement. Within a year of the consolidation Dr. J. D. Blanton became President and continued in that office until his death in 1933. He was succeeded by Dr. John W. Barton, who served until his death in September, 1936.

NASHVILLE AND ITS ATTRACTIONS

For over one hundred years Nashville has been well known as an educational center. Schools of every type are found here. The Vanderbilt University with its various professional schools, George Peabody College for Teachers, Scarritt College for Christian Workers, and Ward-Belmont are located in the same general community, and give to Nashville a distinct charm and atmosphere of culture which makes this city an ideal home for students. Such an educational center naturally attracts the best lecturers and artists. Ward-Belmont students have the advantage of attending all of the leading concerts, plays, and lectures that are available in the city, while annually an outstanding artist series is presented in the school auditorium.

There are some very interesting examples of architecture in Nashville well worth a visit of the students. The State Capitol is an excellent example of classical architecture. In Centennial Park is a facsimile of the Parthenon, true in every detail. One of the newly erected buildings in Nashville is the imposing Tennessee War Memorial Building surrounded by a memorial park. To the west of the school is the Belle Meade section, for many years the South's most celebrated stock farm, and now Nashville's most exclusive residential section. The Hermitage, the home and burial place of Andrew Jackson, is twelve miles to the east. Not far from the campus is the battle field of Nashville where there was erected recently a memorial commemorating a reunited country.

CLIMATE AND HEALTH

The bracing atmosphere and temperate climate of Middle Tennessee make Nashville an ideal location for school work. Pupils from more northern states, as well as those from farther south, find here a school unexcelled in physical advantages. The mild weather and the inviting campus encourage outdoor sports and games, which have contributed much toward maintaining the excellent health record of the school.

Ward-Belmont realizes how much the health of its students depends on physical conditions, and safeguards their health in every possible way. The buildings are sanitary; the drinking water is cooled and is supplied in hygienic fountains throughout the buildings; trained and experienced nurses have charge of a well-ordered infirmary. By means of the regulations regarding meals, sleeping

hours, and exercise, much is done to insure an excellent health record. A further precaution is the requirement that a certificate of good health be furnished by every student.

As nourishing food is the best agent for the most effective physical and mental advancement, especial care is paid to the food. The kitchen and bakery have the latest improvements in steam cooking, gas and electric appliances, and cold storage; the dining halls are commodious and attractive. The menus are supervised by a competent dietitian.

CAMPUS

Ward-Belmont, with an elevation of one hundred feet above the city, stands in the beautiful park which was formerly the site of Belmont. Extensive additions have been made to both the grounds and the buildings. The campus of forty-five acres, a part of which is devoted to athletic fields, is sufficiently removed to give that quiet and seclusion which are conducive to studious habits; yet the railway station, the shopping districts, and the churches of all denominations in the city are easily accessible.

BUILDINGS AND EQUIPMENT

The nucleus of the buildings is the old Acklen residence, an unusual adaptation of Italian architecture. Grouped around this interesting example of the center of an old Southern estate are the buildings which have been added at intervals by the school. These buildings are arranged in the shape of a quadrangle with one open side. On the north side of this square are located Fidelity, North Front, South Front, and Founders Hall, with the drawing rooms, the auditorium, and the dining rooms; on the east, three other residence halls—Pembroke Hall, Heron Hall, and Hail Hall; on the south, the Academic Building and the Gymnasium. Other buildings on the campus include the high school building, the music practise house, the social club buildings, and the heating plant. Buildings adjacent to the campus are utilized for the intermediate school, home economics classes and additional music studios. The buildings are handsome and commodious, and are models in their adaptation to school use. They are fitted with the most improved methods of sanitation, heating, lighting, ventilation, and fire escapes.

The Academic Building, in classic colonial architecture, was completed and equipped in 1914. The ground floor of this building contains the chemistry, biology, and physiology laboratories and

lecture rooms. The offices, library, and some of the class rooms occupy the main floor. On the second floor are class rooms and the expression studio, which is adapted to class work and also to the production of plays before a small audience. The third floor is occupied mainly by the art studios. Most of the high school classes are held in the high school building.

The Gymnasium has complete modern equipment. In style it conforms to that of the Academic Building, with which it connects. On the ground floor are four bowling alleys, an instructor's office, a shampoo room, lockers, dressing rooms, showers, and store rooms. The main floor constitutes the large gymnasium; it provides two spacious, well-lighted rooms for all forms of indoor exercise. The next floor contains the spectators' gallery, a dance studio, and three rooms for special classes, board meetings, and trophies. The swimming pool is in a separate building, which adjoins the gymnasium.

Separate dormitories are provided for college and high school students, thus promoting the individual welfare of each department. These residence halls are well furnished and in their arrangements meet every demand of comfortable and well-ordered home life. Senior, Hail, and Heron Halls are arranged in suites of two double rooms with connecting bath, or, in some cases, of two single rooms with connecting bath. Other dormitories have either separate double rooms, with ample sanitary appointments and baths on every floor, or bath suites of two double rooms each. Each room is furnished with rugs, dresser, table, chairs, single iron beds, and, with few exceptions, separate closets. All the rooms have outside exposure, with abundant sunlight and fresh air.

Ten well-equipped club houses provide for the needs of the ten social clubs for resident students. Each house is prepared for meetings and informal entertaining.

LIBRARIES

The college library and reading room are located in a bright, cheerful room on the first floor of Academic Building. The book collection of 14,200 volumes represents a reorganized, carefully selected library to meet the needs of the students. At present it is especially strong in books of the cultural subjects, such as music, art, literature, modern languages, and history. The resources of the Carnegie Public Library and the college libraries of the city are also available to the students. The increased use of and interest in the college library have been most gratifying. The seating capacity of the reading room has been increased to meet added demands.

The reference section contains standard encyclopedias, dictionaries, and tools best adapted for the research work required of junior college students. With the co-operation of faculty members, emphasis has been placed upon the recreational reading of the students. A rental collection consisting of the best in contemporary literature, drama, poetry, biography, and fiction has been provided. Attention is also directed to the classics and standard works by reading lists, displays, and open reserve shelves. The main stacks of the library are also open for students' use. The library subscribes for eighty-five standard periodicals. The collection of bound magazines numbers 1,350 volumes. The leading newspapers of the country are also in the reading room for the use of students.

The library is endeavoring to meet the reading needs of the girl of junior college age, both in supplementary reading in connection with the course of study, and in general literature. As a means to a better understanding of books and a more intelligent use of libraries, one class hour from the subject matter courses is given to a discussion of the use of library tools in connection with the particular course in question. The card catalog, periodical indexes and reference books are examined and discussed by using the terminology of the subject of the course. This lesson is worked out by the librarian and the individual teacher, and is often given at the time library research papers are assigned.

A separate library of 800 volumes, with a supervised study hall, is maintained for the use of students in the high school department. Duplicate copies of periodicals are on file here. The resources of the main library are also at the disposal of the high school students.

The libraries are under the care of a trained librarian and assistants who have had library training.

The library hours are from 8:00 to 5:00 during the day, 7:00 to 9:30 at night, and 2:00 to 5:00 on Sunday.

RELIGIOUS ACTIVITIES

Though no sectarianism is lived or taught, earnest effort is made to stimulate and strengthen the impulse toward Christian life and service. Regular Bible courses form part of the curriculum, and there is an active Young Women's Christian Association, in which members of the faculty co-operate with the students. The association and the school jointly employ a secretary, who directs the activities of the Y.W.C.A., so that the influences of this organization are made vital in the life of the school. Systematic Bible training and mission study, devotional exercises at chapel, and frequent visits

by the pastors of the city are among the agencies by which the school life is made wholesome and inspiring. The spirit of church loyalty is fostered by requiring each student to attend, on Sunday morning, the church of her parents' choice.

DRESS AND HOUSEHOLD ARTICLES

Extravagance and extremes in dress are firmly discouraged. The administration presents its ideas and regulations for appropriate dress for the Ward-Belmont girl in a dress circular, which will be sent on request to each mother who contemplates sending her daughter to the school.

An abundant supply of table napkins, towels, sheets, pillow cases, and bedspreads is furnished for the use of each student.

GOVERNMENT

Compliance with regulations is enforced by a modified form of student government, properly safeguarded by faculty co-operation and supervision. This organization consists of (1) a student council composed of representatives chosen by the students from the college and high school classes; (2) a faculty committee composed of sponsors of halls and governmental groups; and (3) the President.

Full details of the student government are given in the Blue Book which is presented each student on entering.

EDUCATIONAL OBJECTIVES

**Education Should Train the Student to Think in Order to Emphasize Manner
as Well as Matter of Thought**

Ward-Belmont School is accredited both in its preparatory school division and in its junior college division by the Southern Association of Colleges and Secondary Schools. The two divisions are separate and distinct so far as content of courses, class rooms, libraries and teaching staffs are concerned. The college preparatory division is under a principal; the junior college division is directed by a dean.

The Conservatory of Music is a fully accredited junior college member of the National Association of Schools of Music.

The chief function of a woman's junior college is to educate for (1) worthy use of leisure time; (2) health; (3) worthy home membership; (4) vocational training and guidance; (5) continuance in a senior college.

Women, especially married women, have a great deal of time which is employed in non-occupational activities, and their college education will be a supreme failure if it does not train them to devote their minds and energies to self, family and community advance-

ment. Vocations may change so that training in one particular field will be of little value, but few college-trained women really have no leisure. A full life consists much more in doing a few things well and intensively than in doing many things. College should help a student to gain a true perspective of the value of activities to herself.

As much of a woman's activity after her college career is centered in her club memberships, social and civic, she needs a background of knowledge and experience that will enable her to be an efficient leader or an intelligent follower. Ward-Belmont attempts to prepare its students for a worthy use of leisure time through the cultivation of talent (in art, music, expression, linguistics, etc.), of interest in fine arts and of appreciation of civic activities. Courses in History of Music, History of Art, Survey of Literature, Shakespeare and Modern Drama are complemented by concerts, exhibits and lectures in these fields. Student organizations, governmental, literary, athletic and social, are encouraged and supervised to develop initiative and sense of responsibility for community and group welfare. Courses in economics and sociology and in certain phases of religion are designed to give the student a background of knowledge regarding the development and organization of social institutions.

Conservation and improvement of health includes knowledge of bodily functions (which are taught in courses in hygiene and physiology) and participation in exercise for strengthening, for correction of defects, and for carry-over activities as tennis, swimming, bowling, archery, riding, and dancing. Ward-Belmont offers unexcelled opportunities in each of these.

Preparation for worthy home membership is offered through courses in home economics and home management, but even more through group activities and the stressing of ideals of comradeship, courtesy, and consideration. Residence in dormitories, where girls live in close contact under regulations made and enforced by themselves to a great extent, teaches them many of the principles underlying satisfactory group conduct. All resident students have membership in a social club, which gives them further training in making group contacts and assists them also in acquiring and developing poise, dignity, social ease and tactfulness. Sponsors who possess the desired characteristics and who have a knowledge of the problems of young girls and an interest in their development are used for halls and for clubs even as trained teachers are employed for the class rooms.

Vocational training includes those courses which prepare a student specifically for occupations and emphasize those fields which are most frequently chosen by women—the various opportunities offered in home economics, in fine arts, in social service, in education, etc. Fields which are pre-eminently open to men are left to universities and co-educational institutions.

As seventy per cent of all Ward-Belmont graduates continue their education in some institution of higher learning, especial care is taken to see that those courses are available which best prepare the students for a successful continuance of their formal period of educational activity. Courses of study are selected in consultation with the Dean of Faculty, who attempts to determine the most profitable and enjoyable course for each student.

ADVICE ON CHOICE OF SUBJECTS

It is our desire that the courses of study be clearly understood by parents and prospective pupils. Again, it is important that each pupil's course be carefully planned on the basis of work already completed, and that individual tastes and aims be taken into account. To accomplish these ends, correspondence and personal conference with the Dean are cordially invited. A complete course of study for the ensuing year should be filed in the Dean's office by August 15, or as soon thereafter as possible. Prospective patrons are urged to co-operate with us in working out this course of study. Plans so made can be modified, if it seems desirable to a patron, on the opening days of school; but further changes during the year are usually discouraged. In this way continuity of effort and the greatest advancement can be secured.

It is advisable that the student while in the junior college should make preparation for advanced work at the university of her choice. She should enroll in those courses which are required or advised as preliminary to higher studies. English, foreign languages, mathematics, social sciences and natural sciences are the five designated groups from which she should select the major part of her course.

APPLICATION FOR ENROLLMENT

Early application is advised. This application should be made on the school's blank, which calls for references, and must be accompanied by a physician's certificate as to the health of the applicant. These forms will be sent on request, and no student can be definitely enrolled until they are properly filled out, submitted to the Registrar with the enrollment fee of \$25, and formally accepted.

THE JUNIOR COLLEGE

ADMISSION.—Admission to the junior college is based on the presentation of fifteen acceptable units from an accredited senior high school. All units certified by such a high school and meeting the general requirements as outlined by the various accrediting agencies of colleges and secondary schools are acceptable.

ADVANCED STANDING.—To receive credit for advanced standing, the student must present to the Dean of Faculty proper credentials from an approved institution of junior or senior college grade. The college credit given will be determined by the Dean and will in no case exceed thirty-two semester hours, including physical education. Transferred credit for courses specifically required for graduation from Ward-Belmont will not be allowed unless the transferred work is the equivalent of the work required here, or unless subsequent courses in the subject are satisfactorily completed here during the succeeding year. The equivalent of an average of "C" is required on all transferred work.

College credit will not be allowed for a high school course in excess of those units required for college entrance.

CLASSIFICATION.—The work completed by the beginning of the semester determines the class to which a student belongs. A high school graduate meeting the entrance requirements is classified as a college freshman. Students who present at least twenty-four semester hours plus physical education at the beginning of the semester are classified as sophomores.

COURSE OF STUDY.—Each student should select courses in line with the requirements for the certificate or diploma for which she wishes to apply. The minimum course requirements for all boarding students consist of twenty-six semester hours per year, including the following courses:

First Year		Second Year	
English 1, 2	6 hours	Physical Education 15, 16	1 hour
Physical Education	2 hours	Physical Education	1 hour

Students who present transferred credit in English or Physical Education 15, 16 (Hygiene) must substitute other courses to meet the minimum schedule requirements.

Students are required to carry a minimum of three hours a week in the Physical Education Department during each year of their residence in Ward-Belmont.

Day students who wish to carry work in special departments but are not interested in applying for a certificate or diploma are permitted to elect courses without reference to the minimum course requirements.

ORIENTATION.—Lectures will be given at intervals throughout the year to assist students in making the transition from high school to college more easily and to aid them in adjusting themselves to college life more efficiently. Methods of study, proper distribution of time, social and curricular adjustments, vocational opportunities and other questions of interest in personal adjustment problems will be considered in these lectures. Opportunities for conferences on these subjects are offered all students.

Some form of the Otis test, the Thurstone Personality Schedule, and an English sectioning test are given every new student to the end that she may be quickly placed and intelligently guided.

GRADES AND REPORTS.—The following grading system is used: A, excellent; B, good; C, satisfactory; D, passing; E, condition; F, failure; I, work incomplete or absent from examination. Semester examinations are given in every course in accordance with the schedule issued. Either an E or an I in a semester grade which is not removed during the succeeding semester becomes an F which can be removed only by repetition in class. When a mark of E is removed, the recorded grade may not be higher than a D.

Preliminary reports showing progress and standing of students are sent parents at the middle of each semester. Official reports are sent at the end of the semester.

DIPLOMAS AND CERTIFICATES.—Diplomas and Certificates are conferred in the curricula listed below. An applicant for any of these awards must complete at least one year's work in Ward-Belmont.

THE JUNIOR COLLEGE GENERAL DIPLOMA.—A total of sixty-four semester hours of college work completed with not less than sixty quality credits* must be presented by applicants for the Junior Col-

*NOTE—For each semester hour of credit completed with a grade of A, three quality credits are assigned; with a grade of B, two quality credits; with a grade of C, one quality credit. Lower grades yield no quality credits. Quality credits are not allowed for the four semester hours of required physical education.

lege General Diploma; well established habits of correct speaking and writing must be demonstrated.†

This diploma is granted upon the satisfactory completion of any one of the following curricula.

(1) SENIOR COLLEGE PREPARATORY CURRICULUM

To apply for this curriculum the student should offer for entrance the following high school units:

English	3 units	Geometry	1 unit
Algebra	1 unit	One foreign language	2 units
Electives		8 units‡	

Applicants whose high school credits do not meet the requirements may make up the deficiency by carrying work in the high school department or by counting back college work at the ratio of 4 semester hours for 1 high school unit.

English 1, 2	6 hours	Freshman year
§English 21, 22	6 hours	Sophomore year
Foreign Language	6 to 14 hours	Freshman and/or Sophomore year
History or Science	6 or 8 hours	Freshman or Sophomore year
Physical Education 1, 2	2 hours	Freshman year
Physical Education 15, 16	1 hour	Sophomore year
Physical Education 21, 22	1 hour	Sophomore year
Electives	26 to 36 hours	Freshman and Sophomore years

Students presenting only two units of a foreign language from high school are required to take two year courses in a foreign language in college. Students presenting three or four units in one foreign language may satisfy the requirement by taking one year course in the language presented for entrance or two year courses in another language. Those presenting two units in each of two languages are required to continue for a year one of the languages presented for entrance or to take two year courses in a third language.

Eighteen semester hours from the special departments of art, expression, home economics, music, and secretarial training, and from the elective courses of the physical education department, may be credited toward this diploma. In music not more than eight semester hours in **applied music** may be so credited.

†NOTE—Any applicant whose oral or written English is at any time unsatisfactory is reported to the Dean's Committee on Oral and Written English. The committee advises with the student, and provides her with opportunities for such remedial work as she desires to the end that she may change her speaking and writing habits to meet the standard required.

‡NOTE—More than four units in vocational and special subjects, or fewer than two units in a foreign language may not be included in the elective units accepted.

§NOTE—Students who have finished a comprehensive high school course in survey of English literature may take an examination covering English 21, 22. If they pass the examination they may substitute another course in English literature for English 21, 22.

(2) TERMINAL CULTURAL CURRICULUM

In keeping with the current trend in education to recognize and provide for the needs of students who do not expect to attend a senior college upon completion of their junior college experience, the faculty has provided the following terminal curriculum. The Dean undertakes to assist each student in choosing electives in line with her interests and capacities. **To apply for this curriculum a student needs to offer for entrance any fifteen acceptable college entrance units.**

First Year		Second Year	
English 1, 2	6 hours	English 21, 22 or 23, 24	
*History or Social Science	6 hours	or 25, 26	6 hours

		Physical Education 15, 16	1 hour
		Physical Education 21, 22	1 hour

*Students who have finished a comprehensive high school course in survey of English literature may take an examination covering English 21, 22. If they pass the examination they may substitute another course in English literature for English 21, 22.

A minimum of 24 problems will be required. Additional problems to overcome weaknesses and to strengthen work in field of specialization will be assigned. Students will be expected to present work of consistently high quality.

The progress of each student is individual. Some students will be able to complete problems in less time than will be required for others who have had less previous training or who have less native ability. Completion of syllabus requirements—not number of hours in the studio—will determine the student's right to receive the diploma.

THE DIPLOMA IN DANCING.—To apply for this diploma a student needs to offer for entrance any fifteen acceptable college entrance units.

First Year

English 1, 2	6 hours
French 1, 2 or 11, 12*	6 or 8 hours

*Two years of French in high school meets this requirement.

†Twelve semester hours in English must be included among the electives chosen during the two years.

HOME ECONOMICS DIPLOMAS.—The Department of Home Economics awards two diplomas to be granted upon the completion of sixty-four semester hours with sixty quality credits*. To apply for either diploma a student needs to offer for entrance any fifteen acceptable college entrance units. A student who expects to transfer to senior college for continued work in home economics should offer for entrance the college entrance units listed for the Senior College Preparatory Curriculum (page 23).

MUSIC DIPLOMAS.—For diplomas offered by the Conservatory of Music see pages 72-82.

THE CERTIFICATE IN ART.—For a certificate in Art thirty-two semester hours, including the subjects listed below, are required. To apply for this certificate the student needs to offer for entrance any fifteen acceptable college entrance units.

Art 11, 12	8 or 12 hours
Art 13, 14 or 15, 16 or 17, 18	6 hours
Art History 13; 14	6 hours
English 1, 2	6 hours
Electives	0 to 4 hours
Physical Education	2 hours

*See note on page 22 for explanation of quality credits.

†Psychology is suggested as an elective.

‡Chemistry is included depending upon the future plan of the student.

A minimum of 16 problems, as outlined in the syllabus, with consistent grades of satisfactory quality will be required. Additional problems to overcome the student's points of weakness and to strengthen her work in her field of specialization will be required.

The progress of each student is individual. Some students will be able to complete problems in less time than will be required for others who have had less previous training or who have less native ability. Completion of syllabus requirements—not number of hours in the studio—will determine the student's right to receive the certificate.

THE CERTIFICATE IN DANCING.—A student who applies for the Dancing Certificate needs to offer for entrance any fifteen acceptable college entrance units.

First Year

English 1, 2	6 hours
Music 15; 16	6 hours
Art History 13; 14	6 hours
Physical Education 15, 16	1 hour

Elective	6 hours
Physical Education 23, 24	6 hours
Physical Education 31, 32	6 hours

NOTE—Academic subjects required for this certificate are not included in the extra charge for the work of this department.

High school students who wish to perfect themselves in the art of dancing or who wish to work toward the Certificate in Dancing, are permitted to do the practical dancing work—six hours a week—and will be awarded a Proficiency Certificate in Practise at the completion of two years of work.

THE CERTIFICATE IN EXPRESSION.—The applicant for this certificate needs to offer for entrance any fifteen acceptable college entrance units.

Expression 11, 12	6 hours
English 1, 2	6 hours
English (elective courses)	6 hours
Electives	12 hours
Physical Education	2 hours

MUSIC CERTIFICATES.—For certificates offered by the Conservatory of Music see pages 73-82.

THE CERTIFICATE IN RIDING.—The following course leading to a Certificate in Riding is offered for students eighteen years of age or older who wish to specialize in riding:

Physical Education 19, 20
 Physical Education 29, 30
 Physical Education 15, 16

Certificates will be awarded all students who complete the required course and who, in the judgment of the Riding Instructor and the Director of Physical Education, prove themselves capable of conducting and teaching riding.

THE CERTIFICATE IN SECRETARIAL TRAINING.—The course in secretarial training is designed to cover two years' work, upon the successful completion of which a certificate is awarded. **The applicant for this certificate needs to offer any fifteen acceptable college entrance units.**

First Year		Second Year	
Secretarial Training 1, 2	6 hours	Secretarial Training 11, 12	6 hours

Economics 21, 22, Sociology 21, 22 and Psychology 21, 22 are strongly recommended as elective subjects.

DESCRIPTION OF COURSES

Courses numbered 1 to 10 are open to freshman college students. Courses numbered 11 to 20 are open to freshman and sophomore college students. Courses numbered above 20 are open to sophomore college students only. Students who wish to enter courses to which their classification does not entitle them must secure special permission from the Dean of Faculty.

If credit is allowed only upon the completion of the year's work the course numbers are separated by a comma. If credit is allowed for either semester of a year's work the course numbers are separated by a semicolon or by a period.

The school reserves the right to withdraw any class for which there are not as many as six applicants.

AESTHETICS

MR. RIGGS

MISS SHACKELFORD

15; 16. Aesthetic Appreciations. The work of the first semester involves the understanding of the essential principles of art expression, namely: balance, rhythm, variety, unity, and harmony. The aim is so to present these principles that the student will think through the whys of their operation as found not only in great works of art but also in the objects with which she is surrounded, as problems of home construction, furnishing, and dress.

The work of the second semester is designed especially for those who desire an acquaintance with, and an understanding of, the literature of **music**, though they may not have had any technical music training. No previous musical experience is required for admission. Topics which will be discussed and copiously illustrated with duo-art and phonograph recordings include the following: the folk-song, the art song; opera and oratorio; piano music; chamber music; orchestral music, etc.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

ART

MISS SHACKELFORD, Director

MISS GORDON

MRS. SUTHERLAND

Courses in General Art, Interior Decoration, Costume Illustration and Commercial Advertising are planned for students who wish to make practical application of art and design in the commercial world.

The work of the school as outlined seeks to develop the creative ability of the student, to advance her skill in drawing and to give her a knowledge of the fundamental principles of art. It is so arranged that the student secures the greatest possible return for the time spent in study.

Satisfactory completion of an outlined course will furnish the basis of success in a chosen branch of art, or will prepare the student to take the examination required for admission and classification in advanced courses by the leading art schools.

The work in all courses is the same in the freshman year but it may be adjusted so that each student may place emphasis upon the fundamental principles of the course which she plans to elect the second year. Students who feel that their previous training should entitle them to admission to the advanced courses will be allowed to stand an examination and will be classified on the basis of their achievement on the test. The advanced courses of study include General Art, one year; Costume and Commercial Illustration, one year; Interior Decoration, one year. Arrangements for more advanced work may be made with the Director of the School of Art.

Students who have had no previous acceptable training in art may be required to take a double course in the studio during the first year in order to meet the requirements of proficiency for admission to the second-year classes. Hour credit will be granted for this additional work. All first-year students are required to take art history as a parallel study.

Elementary courses offered by the School of Art are described on pages 60 and 61 of this catalog. Students who have successfully completed these courses in the School of Art may, with the permission of the Director, substitute more advanced work for portions of Art 11, 12.

The studio reserves the right to retain certain examples of each student's work to use in exhibitions.

1; 2. Arts and Crafts. This course is offered for students who are interested in construction and applied design. Problems in basketry, metal work (copper and brass), tooled and cut leather work, woodblock printing, simple weaving, cardboard construction (including elementary bookbinding and lamp shade making), and tie dyeing and batik. The work of this course will be especially valuable for camp counsellors and for teachers of elementary grades.

Four hours a week.

First semester, second semester.

Credit, two semester hours.

3, 4. Principles of Design. This course offers instruction involving the application of fundamental design principles. The work includes portfolio making, lettering, color theory, block printing and textile design. A survey is made of the history of costume with its application to current fashion.

Lecture and studio work, three hours a week.

First semester, second semester.

Credit, four semester hours.

11, 12. Introduction to Art. The course presents the fundamentals of design and representation in orderly sequence. Two hours each week are given to lectures and discussions, in preparation for which the students are given assignments in collateral reading. Three double periods each week are devoted to laboratory practise in pencil, charcoal, tempera and transparent water color painting. This work also includes drawing the head and figure from the posed model, with emphasis upon construction and action. Drawing from memory is stressed. Pictorial composition, lettering and color theory are a part of the course. Correct home furnishings and dress are given consideration in the lectures of the second semester. All art students are required to present this course as a prerequisite for more advanced work. Students who plan to take additional work in Art and whose previous training has not prepared them to complete the work of this course in the minimum time, should arrange to spend an additional six hours a week in the studio. Two hours a semester will be granted for this additional work.

Required collateral: Art History 13; 14.

Two lectures, six or twelve studio hours a week.

First semester, second semester.

Credit, eight or twelve semester hours.

13, 14. General Course. During the first semester of the year this course includes life drawing in charcoal, freehand perspective sketching and water color painting.

In the second semester the course covers life drawing; painting in water color from life, still life, and landscapes. Pictorial composition is stressed. Memory drawing is a part of the work.

Prerequisite: Art 11, 12 and permission of Director.

Ten hours a week.

First semester, second semester.

Credit, six semester hours.

15, 16. Costume and Commercial Illustration. The work of this course consists of problems in life drawing, water color painting, lettering, composition, commercial illustration, advertising layout, reproductive processes and a survey of the history of costume.

Much of the time of the second semester is given to the illustration of costumes shown in local stores. The student is required to fill sketch books with costumes and accessories from which she develops in the studio newspaper layouts and magazine pages which may be reproduced in wash, line or color.

Prerequisite: Art 11, 12 and permission of Director.

Ten hours a week in studio.

First semester, second semester.

Credit, six semester hours.

17, 18. Interior Decoration. This course includes a study of mechanical perspective, elevations in color, water color rendering, architectural details, historic ornament, furniture construction, history of period furniture, period interior design, including contemporary design, history of interior decoration.

Prerequisite: Art 11, 12 and permission of Director.

Ten hours a week.

First semester, second semester.

Credit, six semester hours.

ART HISTORY

MISS GRAY

13; 14. Art in the Western World. A general survey course in architecture, sculpture, and painting in Western Europe, with special reference to historic backgrounds and national characteristics. The work of the first semester covers the subject from the beginning to the end of the Middle Ages. The second semester covers the period from the Renaissance to the present, with special attention to the various schools of painting. Lectures, colored prints, lantern slides, library work, written reports.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

21. 22. **American Art.** A survey course in the painting and sculpture with lectures on the types of architecture in America from colonial times to the present.

This course should be taken in connection with English 25. 26.

First semester, second semester.

Credit, four semester hours.

BIOLOGICAL SCIENCES

MRS. GREGG

MRS. HOFSTETTER

11, 12. **General Biology.** This course is an introduction to the fundamentals of living protoplasm, a study of cell structure and physiology of plant and animal life. A brief survey is made of the plant divisions from the unicellular forms to flowering plants. A similar survey is made of the animal kingdom. Types are selected from each animal group for comparative study. Consideration is given to the practical relation of biological conditions to human life.

Lecture, three hours; laboratory, four hours.

First semester, second semester.

Credit, eight semester hours.

21. **Invertebrate Zoology.** A comparative study of the invertebrate groups of animals, their structure, classification, ecology and economic value.

Prerequisite: Biology 11, 12.

Lecture, two hours; laboratory, six hours.

First semester.

Credit, four semester hours.

22. **Vertebrate Zoology.** This includes the comparative morphology of the backbone animals and their special adaptations.

Prerequisite: Biology 21.

Lecture, two hours; laboratory, six hours.

Second semester.

Credit, four semester hours.

CHEMISTRY

DR. HOLLINSHEAD

MISS WIDELL

11, 12. **General Chemistry.** In this course it is intended to give the student careful instruction in the important principles of Chemistry. All of the non-metallic and the most important of the metallic elements are studied. The intention is to train the student in accurate scientific thinking; to arouse in her an appreciation of the laws of nature; and to set forth some of the practical applications of the science of Chemistry to the many problems of life.

Lecture, three hours; laboratory, four hours.

First semester, second semester.

Credit, eight semester hours.

21, 22. **Qualitative and Introduction to Quantitative Analysis.** This course is planned to give the student both a theoretical and a practical working knowledge of the methods of identifying the common elements and acid radicals.

Prerequisite: Chemistry 11, 12 or its equivalent.

Lecture and laboratory, nine hours a week.

First semester, second semester.

Credit, ten semester hours.

23, 24. Organic Chemistry. This course is intended primarily for students of Home Economics. Typical compounds of the aliphatic and of the aromatic series are studied. Stress is placed upon those substances useful as foods.

Prerequisite: Chemistry 11, 12.

Lecture, three hours; laboratory, four hours.

First semester, second semester.

Credit, eight semester hours.

ECONOMICS

MISS EWING

3. Economic Geography. This course is designed to cover the economic geography of the world, treating such topics as agriculture, forest resources, fisheries, animal foodstuffs, fuels, ores, transportation, foreign trade, and manufactures. Emphasis is placed upon the interrelations and the adjustments of peoples to their environments.

Three hours a week.

First semester.

Credit, three semester hours.

4. Our Economic Organization. This course is designed for beginners in the study of economics and does not deal with theories and abstract principles. The aim is to acquaint the students with the fundamental social structures and their functions in our economic organization: banks, specialization, business organization, scientific management, government and the many other agencies which aid man in making a living.

Three hours a week.

Second semester.

Credit, three semester hours.

21, 22. Principles of Economics. This course deals with the laws or principles affecting the production, distribution, and consumption of wealth, or the material means of satisfying human desires.

Topics: Economic organization; the basis of the science of economics; industrial evolution; production; the laws of price; demand and supply; money, banking and exchange.

During the second semester the problems of the business organization are considered.

Topics: Transportation; government regulation of transportation; monopolies; insurance and speculation; the distribution of wealth and income; rent; wages; interest; profits; the economics of government taxation; the problems of labor; reforms of the economic system.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

24. The Present Economic Order. The plan is not to include theories but to bring out as clearly as possible some of the major economic factors that one faces today. Such topics as these will be covered: a description of our present economic order, including money, the types, meaning of exchange, financial institutions, and the federal reserve system; business organizations; market practices of salesmanship, advertising, and competition; the business cycle; the role of the consumer and of the worker.

Three hours a week.

Second semester.

Credit, three semester hours.

EDUCATION

DR. BURK

11; 12. Introduction to Education. The purpose of the year's work is to help the student develop an intelligent interest in, and comprehension of, the elaborate system of public education in the United States. The first semester includes a brief orientation in the field of present-day education, a survey of costs, teacher qualifications, etc., and some examination of European practises. In the second semester problems and practises, including scientific movement, learning processes, teaching procedures, etc., are approached historically. There are occasional field trips for observation.

1, 2. Fundamentals in Reading and Writing. This course is required of all first-year college students or candidates for any certificate or diploma.

Through reading and writing in varied literary types, the student works towards the objectives of clear thinking, correct expression, intelligent reading, and the development of critical judgment.

Demonstration of well-established habits of correct speaking and writing is a requisite to credit in the course.

A special non-credit class in the fundamentals of English composition is provided during the first semester for those students whose deficiency in spelling, punctuation, and sentence structure makes inadvisable their continuing in English I.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

1, 2X. Fundamentals in Reading and Writing. In the second semester a class meeting six times a week will be organized for students who, for various reasons, are beginning the course at that time. This arrangement will enable students to complete the freshman course within one semester.

Six hours a week.

Second semester.

Credit, six semester hours.

3; 4. Comparative Literature. This course emphasizes types of English literature, compared with foreign specimens. The epic, the drama, poetry, and other types are studied comparatively. In this way is obtained a wider knowledge of ancient and European literature and a richer background for subsequent courses in literature.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

21, 22. Survey of English Literature. This course is required for graduation. The first part consists of the survey from Beowulf to the Restoration Period; the second part from the Restoration through the Victorian Period.

Prerequisite: English 1, 2.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

21B, 22B. Survey of English Literature. This course may be substituted for English 21, 22. A summarizing story of the development of English literature with emphasis on the leading personalities and literary characteristics of each period, is followed by an historical study of the novel, of drama, and of poetry taken successively, the introduction to each study being drawn from the contemporary literature of the type. After these preview surveys have been made, the course proceeds with a chronological study of the periods of English literature from the Anglo-Saxon through the Victorian, 22B beginning with the Renaissance.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

EXPRESSION

MISS TOWNSEND, Director

MISS WINNIA

The aim of the School of Expression is to arouse an interest in the dignity and purity of speech and to establish right vocal interpretation of literature. This end must be accomplished through scientific training of mind, voice and body which will stimulate, not only in public appearances but also in every-day personal contacts, self-confidence, leadership and creative power. Although emphasis is placed upon the use of the voice, much attention is given to the effective use of the body as an aid in the expression of thought and emotion. An effort is made to eradicate local dialects, speech faults and voice inadequacies. Any student who is notably deficient in such phases of speech form as "Clearness of Enunciation" and "Quality of Voice" will be advised and may be required to enter a class designed for speech improvement.

1, 2. Fundamentals of Vocal Expression and Pantomime.

Technic—(a) Mastery of qualities of voice program through a study of fundamental conditions for voice and speech, including good posture, proper breathing, initiation and support of tone, projection and direction of tone. Improvement in individual pronunciation and ear training through a study of English phonetics. (b) Principles of pantomime, through studies and exercises for pantomimic training and problems for pantomimic interpretation. (c) Principles of oral interpretation and public speaking and their application through problems.

Play Production—(a) Dramatization of stories and poems. (b) Production of one-act plays and writing and production of pageants.

Repertoire—A memorized program of one long story, one strong poem, a group of lyrics, a group of character studies and monologues.

Three hours recitation, two hours practise (one supervised, one self-directed) a week.

First semester, second semester.

Credit, six semester hours.

11, 12. Literary and Dramatic Interpretation. Stress is laid upon progressive methods and systematic training by organization of the knowledge of right conditions and personal proficiency in the artistic and scientific development and coordination of mind, voice and body.

Technic—(a) Nine steps of advanced qualities of voice program; (b) nine problems from inductive pantomimic program; (c) problems in fundamental principles of interpretation, including a mastery of the signs of thinking; (d) diction and phonetics, special emphasis on the synthesis of speech sounds, speech rhythm, and speech melody. Application of principles to forms of reading, and connected speech.

Play Production—Study and production of religious eighteenth century and modern drama.

Repertoire—Lyrics, narrative poems, character sketches, two monologues (character and Browning), one eighteenth century one-act play, one modern one-act play.

HISTORY AND POLITICAL SCIENCE

DR. CLARK

MISS WHITE

1, 2. A Survey of Western Civilization. This course is designed primarily to give the student some conception of the continuous development of civilization from ancient times to the present. The contributions of various civilizations to the modern world are studied, with special emphasis upon the medieval and modern periods.

This course is intended to furnish a background for further study in specialized fields of history, literature, art, etc.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

11, 12. Modern European History. The first part of the course covers the period from 1500 to 1815. The evolution of European civilization as accomplished by the cultural, religious, commercial and political revolutions is traced. Emphasis is placed on international relations as influenced by dynastic rivalries and revolutionary movements of the period.

The second part covers the period from 1815 to the present. The industrial revolution as a factor in the social, economic, and political development of Europe; the growth of nationalism, democracy, and imperialism; international relations culminating in the World War are discussed, with a brief study of post-war conditions.

This course is designed primarily for those who have had courses in world history in high school. It is not recommended for those having had History 1, 2.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

15; 16. Current History. The purpose of this course is to so direct the reading of the students as to give them an intelligent interest in and understanding of current world problems. Class discussions are based upon reports taken from current periodicals and newspapers. An historical background is supplied by lectures and individual research.

One hour a week.

First semester, second semester.

Credit, two semester hours.

21, 22. History of the United States. This course is designed to give students an intelligent interest in and understanding of present-day national affairs by tracing the development of American institutions. An attempt is also made to acquaint the student with the literature of historical value.

The first half of the course covers the period from colonial beginnings to 1852. Topics emphasized are: European backgrounds; colonial developments;

the Critical Period, leading to the development of the Constitution and our political system; social and economic developments; expansion; the progress of democracy.

The second half of the course covers the period from 1852 to the present. Topics considered are: sectional interests and conflicts; economic development and industrial consolidation, with the resulting political developments; the growth of the United States to a world power.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

23 or 24. American Government. This course, surveying the American political system, deals with the organization and activities of the national government. The subject matter of the course deals with the making of the constitution; the powers and functions of the President and congress; the federal judiciary; elections and political parties. The course is designed to give the student an understanding of the present-day political system, and is especially beneficial to students interested in American history.

Three hours a week.

First semester or second semester.

Credit, three semester hours.

25, 26. English History. This course is designed primarily for students who major in English literature. The purpose is to give an historical background for the study of the literature of the British Empire.

The first half of the course gives a general survey of England before 1660. Emphasis is placed on such topics as the development of the Empire, conflict between church and state, the Reformation, the development of representative government and law, and economic and social conditions.

The second half of the course covers the period from 1660 to the present. Topics stressed are: the political revolutions, the colonial and imperial expansion, the commercial and industrial development, England's part in the World War, and recent trends in the Empire.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

27, 28. Political Science. The purpose of this course is to give the student an intelligent understanding of and interest in the nation of which she will become a citizen. The first part of the course is designed as a background for the study of present-day affairs. A rapid survey of the history of the United States is made; the discussions of the settlement, expansion, and development of the nation lay the foundation for current readings and interest in present-day affairs.

The second part of the course is designed as a practical guide for an understanding of the duties and privileges of citizens in any community. Problems of and possibilities in an intelligent participation in government are pointed out.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

LATIN

MISS CASON

One of the chief aims of this department is to assist the student in acquiring a background of classical culture which will enrich her future attainments in whatever field she may choose for specialization. An effort is made to stimulate interest through extensive collateral readings, through illustrative material in art and archaeology, and through a conscientious investigation of the facts of Roman life and literature. The student is taught, as far as the opportunity is afforded, to appreciate the debt of the modern world to Rome and, through Rome, to Greece.

1, 2. Cicero, Ovid. Reading of not less than four orations of Cicero (or an equivalent amount in a standard Third Year Book); selections from Ovid's *Metamorphoses*; oral and written composition; sight reading.

Prerequisite: Two units of high school Latin.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

3, 4. Vergil. Reading of not less than four books of the *Aeneid*. A study will be made of the entire poem. Extensive collateral readings; oral and written composition; sight reading.

Prerequisite: Three units of high school Latin, or Latin 1, 2 or the equivalent.
Three hours a week.

First semester, second semester. Credit, six semester hours.

11, 12. Selections from Latin Prose and Poetry. A text with this title, edited by Harrington and Scott, will be used for this course. While illustrative selections from several authors will be translated, attention will be given chiefly to Catullus, Horace, and Livy. Syntax reviews; practise in the writing of Latin; collateral readings.

Prerequisite: Four units of high school Latin, or Latin 3, 4 or the equivalent.
Three hours a week.

First semester, second semester.

Credit, six semester hours.

13, 14. Latin Writing. The purpose of this course is to develop syntactical accuracy, good diction, and an appreciation of the difference between English idiom and Latin idiom. Students who expect to major in Latin are urged to take the course.

Prerequisite: Four units of high school Latin, or Latin 3, 4 or the equivalent.
One hour a week.

First semester, second semester.

Credit, two semester hours.

15; 16. Classical Mythology. The most important myths are studied, with especial reference to their use in ancient and modern literature and art. While attention will be concentrated chiefly on Greek and Roman mythology, some time will be devoted to the myths of other countries. A knowledge of Latin is not necessary. Open to all students of college grade.

Three hours a week.

First semester, second semester.

Credit, six semester hours.

21. a. Roman Comedy. Selected plays from Plautus and Terence. Three plays will be read carefully; others will be taken rapidly or in translations. Collateral readings.

b. Pliny. Selected letters. Collateral readings.

Prerequisite: Latin 11, 12 or the equivalent.

Three hours a week.

First semester.

Credit, three semester hours.

22. Roman Tragedy. Three of Seneca's tragedies will be read in Latin; others will be taken in translations. Comparison with the Greek originals. Attention to Seneca's influence on European tragedy. Collateral readings.

Three hours a week.

Second semester.

Credit, three semester hours.

MATHEMATICS

First semester, second semester.

Credit, four semester hours.

PHYSICAL EDUCATION

MISS CAYCE

MISS GOODRICH

MRS. HALL

MISS MORRISON, Director

MISS NANCE

MISS DELANEY

MISS GRAY

MISS SAUNDERS

MISS SEHMANN

The value of Physical Education, both morally and ethically, the training of the body for utility and grace, and the intelligent care of it for protection against weakness and disease, make the School of Physical Education one of greatest importance. Every effort has been made to make the equipment and management as complete as possible. Physical education is given free of charge to all students, and is required of them for at least three hours a week in every year. A physical examination is given at the beginning of the session, and a record is kept of the condition of the individual. From this record the student is advised as to the kind and amount of exercise best suited to her needs.

The courses offered in dancing are given due consideration from an artistic and physical standpoint. The first grants an intelligent appreciation of dancing as to beauty, interpretation, characterization, and musical improvisation. The second, through the practise of rhythmic exercise to musical accompaniment, enables the student to attain perfect posture, grace and poise, accomplishing as a result a coordination of mind, body and muscle.

The teaching method used is a combination of ballet, Denishawn, and "modern" dancing, with special classes for toe and tap, and limbering and stretching exercises.

THE GYMNASIUM.—The Gymnasium Building is complete in every detail. On the main floor are two gymnasium rooms—one

90x50 feet, for general activity; the other, 50x28 feet, equipped for special exercise. On this floor also are the executive offices and an examining room. A balcony surrounding the main gymnasium furnishes ample space for spectators. On the balcony floor are recitation rooms, a dance studio, and rest rooms for girls who are unable to participate in the regular activities of the department. On the ground floor are four bowling alleys, an instructor's office, a shampoo room, lockers, dressing rooms, shower baths, and store rooms.

THE SWIMMING POOL.—The swimming pool is in a separate building, adjoining the Gymnasium Building. It is 23x50 feet, is constructed of white tile, and is surrounded by a balcony. The water is constantly filtered and sterilized, and is kept at a temperature necessary for comfort. A glass roof gives added light.

THE ATHLETIC FIELD.—The outdoor equipment consists of two athletic fields, an archery range, five tennis courts, and a riding ring. Adding to the completeness of this equipment is a cement court (179x40 feet), which makes possible the playing of tennis and other outdoor games the entire year.

THE STABLE.—Kentucky and Tennessee are world-famed as the birthplace of the American saddle horse. It seems altogether fitting that a school situated within a few miles of the famous Belle Meade Stock Farm should offer every opportunity to its students to perfect themselves in the sport for which the South for generations has been preeminent.

The Ward-Belmont stable is owned and maintained by the school. It consists of gaited saddle horses which are carefully selected as types of disposition entirely suitable for school work, and which are as safe as is possible for horses to be. Careful instruction is given in the various types of horsemanship. A groom is in constant attendance, both in the ring and on the road.

1, 2. Freshman Physical Education. This course is required of all freshman college students unless Physical Education 11, 12 or 19, 20 is taken. Specific requirements are: (1) instruction in swimming until the student is able to pass a proficiency test; and (2) a ten weeks' course in dancing. All other work is elective and is adapted to the needs of the individual student. During the fall and spring students elect outdoor sports; during the winter they choose from various indoor activities. THE HIGH SCHOOL

REQUIREMENT FOR ADMISSION.—Students who have completed the grammar school grades will be admitted without examination to the first-year high school class. It is necessary that the applicant present from the principal of the school from which she comes an official statement that she has completed the grammar school grades.

Students who seek admission to any high school class beyond that of the first year must present upon application a transcript showing the official record of all high school work previously carried. If the school is not accredited, satisfactory examinations will be required.

YEARLY SCHEDULE.—A student's yearly schedule should consist of four subjects credited as one unit each. Under certain conditions, however, a minimum of three subjects and a maximum of five are allowed. In addition physical education is required of all students each year. For a description of the required courses see page 66.

REQUIREMENTS FOR THE HIGH SCHOOL CERTIFICATE.—The high school certificate is awarded to students who have completed sixteen preparatory units, as described below, and the prescribed work in physical education. Of the required sixteen units at least four must be taken in Ward-Belmont, and an average of at least C must be made during the last year of high school.

A unit represents five periods of at least forty-five minutes each per week for a year in a subject ordinarily taught in standard high schools, each recitation requiring preparation. Periods at Ward-Belmont are of a minimum duration of fifty minutes.

No credit is given for less than two units of a foreign language taken in high school.

Required Units—9.

English	3 units—including English IV.
Foreign Language	2 units in one language.
History	1 unit.
Mathematics	2 units—Algebra, 1 unit. Plane Geometry, 1 unit.
Science	1 unit in Biology or Chemistry.

Elective Units—7.

NOTE—Physics, when transferred from an accredited high school, will be accepted in place of Biology or Chemistry. For pupils not preparing for college entrance some other unit may take the place of Geometry.

CREDIT ALLOWED IN SPECIAL SUBJECTS.—Units in the special subjects—art, expression, home economics, music—will be credited toward a high school certificate. **Art**—One unit represents seven periods of supervised studio work per week. **Expression**—One unit represents four periods of prepared class work per week. **Home Economics**—One unit in Sewing represents five periods each week. **Music**—One unit of credit represents two lessons per week in piano, harp, organ, violin, or voice, accompanied by a course in theory of music or musical appreciation. One hour's daily practise is required.

CLASSIFICATION.—The work completed by the beginning of a school year determines the class to which a student belongs.

Four completed units give second year classification.

Eight completed units give third year classification.

Twelve completed units give fourth year classification.

If a student lacks not more than one of the required number of units, she will be given conditional classification.

REPORTS AND GRADING SYSTEM.—Reports are sent out from the office at the close of each month and at the close of each semester. The monthly grade represents the average standing which the student has maintained, by daily recitations, written work and tests, during any given month. The semester grade represents the combination of the semester examination and the average of monthly grades.

The system of grading is as follows:

A Excellent	D Passing
B Good	E Condition
C Satisfactory	F Failure

The school may not recommend for advanced high school or college work a student who does not make an average grade of "C."

Practise Supervisor

THE CONSERVATORY OF MUSIC

The Ward-Belmont Conservatory of Music, a junior college member of the National Association of Schools of Music, offers two years of outstanding work. In addition to the curricula outlined, the Conservatory continues its high standards in certain applied subjects by offering more advanced work equivalent to the applied work required in the four-year conservatories.

The music faculty is one of the best equipped in any school for girls in America. Each teacher has had the best of advantages in conservatory training, and special instruction under masters of unquestioned ability.

The equipment of the Conservatory of Music is ample. There are eighty practise pianos, ten Steinway Grands for studio work, and two Steinway Concert Grands for concert work. The musical libraries and the equipment of Victrolas, records, and radios are fully adequate.

Frequent student recitals are given, and various faculty members give recitals during the year. The School offers a very excellent concert course in its auditorium, and has maintained a high standard for years. Other groups in Nashville also present artists from time to time, and student tickets to these concerts are usually available.

The courses offered include the applied subjects of piano, violin, voice, organ, and harp, as well as the theoretical subjects of theory and ear training, harmony, history of music, sight playing, and public school music. Diplomas are offered in each of the major fields.

Students in the Junior College may elect from the offerings of the Conservatory courses in both applied music and the musical sciences.

Practise in ensemble work is offered through piano ensemble, orchestra, and glee club. College credit is granted for orchestra and glee club work, to any student, whether enrolled in the Conservatory or not.

One general charge is made to those regularly enrolled in any of the various Conservatory courses leading to a certificate or diploma. Extra charges, as shown in the list of expenses, are made to those who wish to take any phase of music in addition to a major in Liberal Arts work. Individual attention is assured each pupil, whether regularly enrolled for the Conservatory course or taking special work in music.

ORCHESTRA

The Ward-Belmont Orchestra, conducted by Kenneth Rose, offers symphonic training for the advanced student and equips him with a practical knowledge of repertoire and routine.

An audition by Mr. Rose is required for admission. The schedule for the orchestra calls for at least one concert yearly, with obligatory weekly rehearsals. Credit is given for regular attendance.

Students not enrolled in the Conservatory of Music may be admitted to the orchestra upon the payment of a small fee.

GLEE CLUB AND CHOIR

The choral activities of the student body are centered mainly in two organizations, both of which are under the direction of the head of the vocal department: the Glee Club and the Choir.

The Glee Club personnel is chosen by test from the large number of students who make application at the beginning of each school year. As many applicants as possible are admitted, in order that the cultural and educational advantages of group singing may be enjoyed by a large number of the student body. However, a minimum of musical background, as well as a minimum of vocal equipment, is demanded, as all music presented in the annual concerts is of the highest type.

A Christmas program of Carols and seasonal music is given before the students leave for the Christmas vacation, and a spring concert, outstanding in quality and variety, climaxes the year's preparation.

During rehearsals the fundamentals of music and vocal tone production are stressed, and the singers become acquainted with many of the masterpieces of choral literature.

A credit of one semester hour a year is given for regular attendance and active interest.

The Choir, a group of eighteen or twenty selected voices, sings once a week at regular chapel services and once a month at a special Sunday morning service. Carefully chosen anthems and hymns are prepared and, while the participants do not receive college credit, the opportunity afforded them for training in church music, and the valuable service rendered by the Choir in the religious life of the school, make it one of the popular student organizations.

DIPLOMAS AND CERTIFICATES

No one may apply for a certificate or diploma who has not completed the requirement of fifteen acceptable high school units. Graduation from an accredited high school will be considered as meeting this requirement.

The course of study, as detailed in the following curricula, leading to a diploma in music, meets with the requirements for the first two years of the Bachelor of Music degree, as outlined by the National Association of Schools of Music.

Under no circumstances may a student earn a junior college diploma and a music diploma within two years.

Regular college students desiring a certificate in music may spread the music requirements over two years.

Pupils desiring to become candidates for certificates and diplomas must announce themselves not later than October 20 through the head of the department in which they are majoring.

Candidates for certificates and diplomas will be examined twice each year by the Board of Musical Directors. The examinations will cover the items specified under the requirements for the various certificates and diplomas. In addition, the candidate must be able to answer questions regarding composers of compositions used, time, key signatures, terminology, etc.

Candidates must appear in public performance at least three times before receiving the certificate, and three additional times before receiving the diploma, and they are required to attend all school recitals.

Applicants for certificates and diplomas in harp, organ, violin, or voice who can show, by examination, that they can meet the piano requirements may, at the discretion of the director, substitute another subject. When piano is taken by such students, the head of the Piano Department assigns the teacher.

The number of hours of daily practise listed under Course Requirements for the various certificates and diplomas represents in each case the minimum requirement. Some students may need additional hours of practise in order to complete satisfactorily the technical requirements.

Candidates for certificates and diplomas are required to present as many quality credits* as semester hours earned.

*NOTE—See note on page 22 for explanation of quality credits.

GENERAL STATEMENTS

RELATIONS WITH PARENTS AND STUDENTS

Parents who register students thereby accept the conditions in this catalog.

There is placed in the hands of each student at the opening of school a copy of the Blue Book, carrying the various detailed regulations pertaining to the domestic and disciplinary matters of the school, compliance with which constitutes an obligation of citizenship in the group and a condition of the contract of agreement.

Except when they are in the Nashville homes of near relatives, pupils from a distance are required to board in the school.

Boarding pupils are not allowed to visit in the city except with the approval of parents and the school management. Permission is not granted to spend the night in the city, except with parents or in the homes of near relatives. Such permission may not be granted more frequently than one week-end in a month.

All permissions of parents or guardians should be written and addressed to the management, and are subject to the approval of the management.

Parents are requested not to permit their daughters to bring to the school expensive jewelry or heirlooms of any kind. Neither should they bring expensive wearing apparel. The school is not responsible for loss or theft.

The school bank, with its system of pass books, deposit slips, checks, and monthly balance reports, not only cares for the spending money of students, but teaches them how to keep a bank account, draw checks, and conduct their own financial affairs. The school is not responsible for money or valuables not deposited in the school bank.

Ward-Belmont does not lend money to students. Drafts made by students are honored only in cases of emergency or upon the written request from parents or guardians.

Students should bring sufficient funds with them to care for buying books and other school supplies. This money should be deposited in the student bank until needed. No charge purchases are permitted in the bookroom.

Boarding students are not permitted to open charge accounts with Nashville merchants except on written request filed by the parent with the Dean of Residence.

Adequate compensation must be made for any defacement of school property.

Parents and guardians are expected to cooperate with the school in securing full and regular attendance. Much educational value attaches to the commencement season, and no student should miss any part of it. All students have obligations to the end of the session. Those who leave earlier, or who do not keep appointments throughout the closing days, will run the risk of jeopardizing their credits.

School work missed because of absence must be made up to the teacher's satisfaction; otherwise credit cannot be given for the course. Ordinarily a tutor can be provided at \$1 to \$1.50 per hour. Semester examinations not taken at the appointed time must be taken later, and a charge of \$2 will be made.

A tutor is provided at moderate cost for students who, in the opinion of their instructors and of the Dean, need coaching.

The school reserves the right to withdraw any class for which there are not as many as six applicants.

Boarding students are under school regulations when in Nashville, except as stated in the Blue Book.

Prompt and regular attendance is required at classes, meals, and all general assemblies.

Students who are too ill to meet school appointments are cared for in the Infirmary instead of in their bedrooms.

Any student who leaves the campus without permission, or who attends a dance in Nashville under any but school chaperonage, or who cheats in examination renders herself liable to summary dismissal.

A student who is found to be out of sympathy with the spirit and ideals of the school may be asked to withdraw, even though she may not have broken any formal rules.

CHARGES AND TERMS

EXPENSES AT WARD-BELMONT, NASHVILLE, TENNESSEE

The school year consists of one term of thirty-six weeks, beginning the third Wednesday in September and ending the first Tuesday in June, with a Christmas vacation of approximately two weeks. The charges here named are for the whole school year, and are due and payable on the opening day of school, but for the convenience of patrons payment may be made in two installments—in September and January, respectively, as stipulated below—and are subject to sight draft after these dates.

An advance registration fee of \$25.00 must be forwarded with the application, which amount will be credited as a prepayment on the school account. It is not subject to return, unless the applicant is rejected.
